OUR MISSION

The Institute of Public Health & Hygiene is dedicated to cultivating global citizens through exceptional technical education, providing students with the interdisciplinary, intercultural, and ethical knowledge necessary for effective participation and leadership in allied health professions.

OUR VISION

To become a globally recognized leader in technical education, emphasizing professional development, strategic research, and adaptable teaching methods.

VISION 2030

In the next five years, the college aspires to become a leading institution in modern education, focusing on critical thinking, adaptability, practical skills, inclusivity, sustainability, and robust industry connections to equip graduates for a dynamic global landscape.

ENVIRONMENTAL POLICY

IPH&H acknowledges and takes responsibility for the environment impact of its actions. We commit to mitigate the impact of our operations on the natural environment and comply with the Indian environmental legislation.

IPH&H works to raise awareness amongst its students and staff on environmental responsibility, and conduct the workings of the institute in an environmentally conscious manner.

FIVE DECADES OF TRANSFORMING GLOBAL HEALTHCARE

HONORING OUR HERITAGE

Founded in July 1976 by (Lt.) Dr. S.S. Joshi, IPH&H was established to create an inclusive educational environment for individuals from diverse backgrounds. This co-educational institution has become a symbol of hope, serving students from various cultures and engaging in community initiatives.

Starting with limited resources, IPH&H has grown into the leading Paramedical and Allied Health Education Institute in the country, proudly marking 50 years of excellence. It enhances the employability of underprivileged youth through life skills training and comprehensive programs, empowering them to drive community change and pursue careers in healthcare. Committed to shaping the future, IPH&H combines liberal arts education with practical skills to ensure successful career trajectories.

The Institute of Public Health & Hygiene in New Delhi has made a notable contribution to India's healthcare system through its involvement in the National Initiative for Allied Health Sciences, the evaluation of the Allied Health Ecosystem, and the development of a strategic roadmap for healthcare human resources. Established in 1984, the Institute has trained armed forces personnel and is now initiating programs for the Central Reserve Police Force (CRPF) in First Aid, Medical Laboratory Technology, and X-Ray and ECG Technician training.

Furthermore, the Institute offers specialized services to organizations such as Indian Airlines, enhancing healthcare for both employees and passengers in the aviation industry. It also trains staff at Northern Railway Hospitals and educates representatives from various State Governments, including Nagaland and Manipur. In collaboration with the University of Delhi, the Institute aims to broaden its training services across the country.

In partnership with the Federation of Indian Chamber of Commerce and Industry, the Institute links the business sector to its training programs, providing training for personnel from major organizations, including the International Airport Authority of India and the United Nations, thus upholding international standards. Additionally, it trains staff from institutions like Sanjay Gandhi Postgraduate Institute and various private hospitals, ensuring that professionals develop essential skills and promote excellence in diverse fields.

Dear Students of Manipur,

It is with great pride and enthusiasm that I extend a heartfelt invitation to you from the Institute of Public Health & Hygiene (IPHH), New Delhi. For over 50 years, IPHH has been a beacon of excellence in Allied Health Education, empowering students to become leaders in the healthcare sector.

A Message to Our Students from Manipur

We recognize the unique challenges and aspirations of students from Manipur. At IPH&H, we are committed to providing a supportive and inclusive environment that respects and celebrates your cultural heritage. Our programs are designed to equip you with the skills and knowledge necessary to excel in the dynamic field of healthcare.

Whether you are looking to enhance your career prospects or embark on a new professional journey, IPHH offers the resources and guidance to help you achieve your goals.

We look forward to welcoming you to the IPH&H family and supporting you in your educational and professional endeavours'.

जयहिन्द !

The campus operates independently, providing excellent infrastructure and resources for an engaging educational experience. Housing is available for male and female students from diverse backgrounds, including international students. The Institute fosters a strong academic environment, equipping graduates with essential skills in the humanities and sciences. With new departments like Medical Laboratory and Imaging Sciences, Dental Sciences, and Communication Technology, IPH&H continually invests in its academic community.

Our Training Team:

A distinctive and excellent training experience is provided by our highly skilled educators. Learn cutting-edge clinical, social, and digital skills from top medical professionals that you may use right away in the medical field.

HOSTEL

The on-campus accommodations at IPH&H are designed to provide a secure and welcoming "Home away from Home" atmosphere. These facilities include integrated dining and laundry services within the hostel premises. Students can select from separate hostel blocks for girls and boys, offering both single and double occupancy options. Each hostel room is equipped with study amenities and sufficient storage, along with access to the campus-wide network and its various resources and services.

CLASSROOMS

Classrooms are essential for student learning and development, designed to promote an interactive educational experience. Smart classrooms improve the visualization of theoretical concepts.

LIBRARY

Students at IPH&H enjoy access to a library with a vast collection of 15,000 books, along with valuable reference materials and lending services for various media. The library subscribes to online databases like DELNET and N-LIST, ensuring continuous access to academic resources. In response to the pandemic's shift to virtual learning, the library has also made online textbooks and reference materials available to students.

IT FACILITIES

The campus offers comprehensive Wi-Fi coverage, facilitating effective communication among all stakeholders. It includes two air-conditioned computer labs, each equipped with numerous computers and high-speed intranet access. All computers feature the latest software applications, providing students with diverse opportunities.

FOUNDATIONS OF AI IN HEALTHCARE

AI in healthcare uses machine learning and cognitive technologies to mimic human cognitive functions, allowing computers to learn and make decisions. It analyzes medical data for outcome predictions, particularly in diagnostics, helping professionals provide more accurate diagnoses and treatment plans. AI also enhances preventive care by analyzing large datasets to offer improved recommendations.

Our training methods consistently incorporate key principles of corporate acumen. The educational approach evolves to meet new trends and challenges in the business landscape. Students are equipped to embody professionalism, ethics, and social responsibility as they prepare for future the role of paramedics. The curriculum features a blend of lectures, tutorials, practical experiences, projects, internships, and various opportunities aimed at fostering holistic personality development aligned with industry needs

THE CLASSROOM

The classroom instruction offers a comprehensive curriculum designed to develop essential business mindsets and a growth-oriented approach through interactive activities. Faculty engage students in group case studies, role-playing, and collaborative projects to foster teamwork and leadership skills for addressing everyday challenges. While the college has maintained a commitment to excellence in on-campus education, it has adapted to the pandemic by transitioning to online learning via MS Teams. These virtual classes encourage active participation and teamwork, focusing on critical thinking and decision-making to uphold high learning standards..

THE GUEST LECTURES

Throughout the year, a series of guest lectures featuring prominent business leaders, policymakers, and renowned entrepreneurs are held. These sessions provide students with an excellent opportunity to interact with influential figures in the medical field on a variety of subjects. This initiative aids in connecting theoretical knowledge with real-world challenges by allowing experts to share their experiences and professional insights. Additionally, the college guarantees that industry speakers contribute to 20% of the curriculum for each specialization, thereby delivering essential practical knowledge.

THE INDUSTRIAL VISITS

IPH&H facilitates experiential learning each semester through industrial visits and corporate excursions, enhancing students' industry exposure and fostering their competence and character development. Visits to medical organizations provide practical experience and valuable knowledge through direct engagement with the industry.

THE SUMMER INTERSHIPS

The six-month summer internship program, available for most courses, equips students with essential job experience, facilitating their transition into professional careers. Students document their learning and conduct research by writing a project report based on their internship experiences.

THE HOLISTIC DEVELOPMENT ALIGNED WITH A DYNAMIC ENVIRONMENT

The program adopts a holistic educational approach, emphasizing practical applications of concepts. Students are encouraged to engage in festivals, clubs, and extracurricular activities, integrating various aspects of intelligence. Furthermore, the college has launched an Employability Enhancement Program to address the needs of modern paramedics in a globalized context, focusing on leadership and people management skills. During the pandemic, IPH&H adapted by providing online upskilling opportunities and free courses as part of its skill enhancement initiative.

Placement activities at the college take place year-round, beginning in students' first year to ensure they are well-prepared for opportunities. The partnership between industry and academia is crucial for cultivating a vibrant culture at IPH&H.

Regular engagement with medical industry professionals is vital for our students, enhancing their skills through summer internships, field visits, and soft skills training. These internships provide valuable industry exposure and meaningful work experiences, serving as a pathway to the corporate world.

IPH&H is committed to adapting to the evolving landscape and demands of the times. This is reflected in our placement process, which has shifted to digital platforms for online interviews for graduating students and summer internships during the pandemic. Our structured and adaptive placement process aims to develop students into their best selves, facilitating suitable placements. We invite you to join us on this journey.

ALUMNI *Association*

The Alumni Association of IPH&H serves as a unified platform for graduates to connect with peers from various batches and fields, both in India and abroad. Its primary aim is to empower alumni, from recent graduates to early cohorts, to utilize professional networks, revive social connections, and make meaningful contributions to their communities and alma mater.

Objectives:

- To effectively harness alumni skills and contributions for the benefit of the Institute and the Association.
- To set clear goals and coordinate efforts to achieve them.
- To foster cultural, academic, and literary growth among members.
- To develop an inclusive and engaging program for alumni of all ages, including their families and guests.
- To cultivate a vibrant community of active alumni who support the program's objectives and serve as ambassadors for the Institute.
- To establish strong ties with industry and spin-off companies, enhancing mentoring, internship, and career opportunities for students and alumni.

Alumni Testimonials

— “ —

Appreciated the high demand for paramedical courses and how IPHH prepares students to meet healthcare industry needs.

— ” —

TH. MUNINDRO SINGH
Technical Supervisor (Blood Bank),
RIMS ,MANIPUR

— “ —

Proud to be an alumnus and faculty at IPH&H, New Delhi. I encourage the youth to join and transform their lives.

— ” —

M. SHYAMCHAND SINGH
Sr. Faculty, Dept. of Biochemistry
Institute of Public Health & Hygiene, New Delhi
