Years of Glorious Legacy

## ABOUT IPH&H

Established in 1976, the Institute of Public Health & Hygiene (IPH&H) is a premier institution committed to excellence in health sciences education and public health advancement. With over five decades of distinguished service, the Institute has been at the forefront of developing skilled healthcare professionals and strengthening institutional capacity across India.

As a centre of excellence in allied health training, IPH&H blends academic rigor with practical exposure, equipping learners to address real-world healthcare challenges. The Institute has also contributed at the policy level as an external expert to the National Initiative for Allied Health Sciences under the Ministry of Health & Family Welfare.

Since 1984, IPH&H has served as a Pre-Release Training Centre under the Directorate General of Resettlement (DGR), Ministry of Defence, providing specialized training to personnel from the Armed Forces. Its outreach further extends to organizations such as CRPF, Indian Airlines, Northern Railway Hospitals, and various State and Union Territory administrations.

With strong collaborations with institutions like AIIMS, University of Delhi, FICCI, Airports Authority of India, SGPGIMS, and international organizations including the United Nations system, IPH&H continues to drive excellence in healthcare education.

Guided by experience and strengthened by partnerships, IPH&H remains committed to shaping a skilled workforce and a healthier nation.

- DIALYSIS TECH.
- OPERATION THEATER TECH.
- OPTOMETRY
- CARDIAC CARE TECH.
- CATH LAB TECHNOLOGY
- BACHELOR IN PHYSIOTHERAPY
- M.Sc. MEDICAL LABORATORY TECH.

## ABOUT THE CONFERENCE :

The upcoming conference serves as a critical catalyst for the global mission to eradicate HIV, bringing together a diverse spectrum of expertise to address the evolving landscape of the epidemic. With the ambitious goal of ending HIV by 2030, the forum prioritizes updating professionals on the latest clinical advancements and breakthroughs in antiretroviral therapy and preventative care.

Central to the event's mission is the empowerment of the nursing and allied health workforce. By strengthening their roles and promoting interdisciplinary collaboration, the conference ensures that patient care is holistic, integrated, and sustainable. The agenda is designed to bridge the gap between theory and practice through a blend of high-level Keynote Sessions and interactive Workshops that provide hands-on skill development.

Fostering the next generation of leaders is also a core pillar, with dedicated segments to encourage student research. Academic rigor is showcased during the Paper and Poster Presentations, while Panel Discussions offer a space for nuanced debate on public health strategies. Ultimately, this gathering is more than a meeting; it is a collaborative engine driving the innovation and advocacy needed to reach the 2030 finish line

## OBJECTIVES OF CONFERENCE:

- To update healthcare professionals on new developments in HIV diagnosis, prevention, and treatment.
- To strengthen the role of nursing and allied health professionals in HIV management and stigma reduction.
- To promote interdisciplinary learning between clinical, community, and policy-level stakeholders.
- To highlight national strategies and innovations supporting the goal of ending HIV by 2030.
- To encourage student research and awareness activities related to HIV and public health.

## KEY HIGHLIGHTS

- Keynote Sessions
- Panel Discussion
- Workshops
- Paper & Poster Presentations
